

Command Terms

09:15 AM

```
aws iam create-user --user-name Bob
```

```
aws iam delete-user --user-name Bob
```

To attach a managed policy to an IAM user

The following `attach-user-policy` command attaches the AWS managed policy named `AdministratorAccess` to the IAM user named Alice:

```
aws iam attach-user-policy --user-name Bob --policy-arn arn:aws:iam::aws:policy/AdministratorAccess
```
